5.1 - Impairment of exploration and evaluation assets

In assessing impairment, the Company must make some estimates and assumptions regarding future circumstances, in particular, whether an economically viable extraction operation can be established, the probability that the expenses will be recovered from either exploitation or sale when the activities have not reached a stage that permits a reasonable assessment of the existence of reserves, the Company's capacity to obtain financial resources necessary to complete the evaluation and development and to renew permits. Estimates and assumptions may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

No impairment loss was recognized during the period ended March 31, 2016 and during the year ended December 31, 2015.

Malartic CHL Prospect - Malartic, Quebec

On March 19, 2015, the Company sold its 30% free carried interest in the Malartic CHL Prospect for a consideration in shares and a 3% net smelter return royalty. For more information on the transaction, please refer to Note 16 - Sale of Malartic CHL Prospect.

Malartic CHL 3% Royalty - Malartic, Quebec

The area covered by the 3% net smelter royalty is located immediately east of the Canadian Malartic Mine operated by Agnico and Yamana. The 3% net smelter royalty covers a number of known mineralized zones; the eastern extension of the Barnat Zone, the Jeffrey Zone, the Shaft Zone and Porphyry 12 Zone, the Norrie Zone, the Hal Zone, the Geo Zones and the recent Odyssey North discovery. No value has been assigned to the 3% NSR royalty.

Odyssey North is proximate to the Odyssey South Zone and together, these zones comprise the “Odyssey Zones”, “Odyssey deposit” or “Odyssey” that is east of the main Canadian Malartic Mine open pit. The mine operators recently reported that as of the end of the fourth quarter (December 30, 2015) 44 holes totaling 35,870 metres had been completed on the Odyssey Zones. Yamana states in its Q4-2015 news release (February 18, 2016) that exploration drilling of the Odyssey deposit transitioned to definition drilling in the fourth quarter with the goal of completing a 100 metre by 100 metre grid on the current defined mineral extents by the third quarter of 2016. The tighter grid spacing will allow for the reclassification of the mineralization as inferred mineral resources, will provide a basis for an in house scoping study and will aid the optimization of subsequent infill drill programs. There are no assurances that all or any of the recent drilling at Odyssey has encountered additional mineralization on the Malartic CHL property that is covered by the Company’s 3% NSR.

The Company holds a 3% NSR on the Barnat Extension and the Jeffrey Zone located inside the Malartic CHL property. Both areas were included in the submitted initial Environmental Impact Assessment (“EIA”) Project Notification Form. The formal EIA was submitted in February 2015. The mine operators have indicated that the process remains on schedule for receipt of the necessary permits by year-end 2016 and that initial production from areas where the Company holds a royalty is set for 2017.

Canadian Malartic 2% Royalty - Malartic, Quebec

The NSR is located on a single claim located just to the south of the Canadian Malartic main pit, and covers the historic Charlie Zones and the Eastern portion of the Gouldie Zone. Production on the 2% net smelter royalty area started in 2014 and total royalty payments of $348,795 were received in 2015: $191,869, covering the last two quarters of 2014, $80,236 for the first quarter of 2015, $48,492 for the second quarter of 2015 and a last payment of $28,198 received in October 2015. The Company has received a final adjustment payment of $1,542 on April 29, 2016. Canadian Malartic GP (50% owned by Agnico Eagle Mines Limited (“Agnico”) and Yamana Gold Inc. (“Yamana”) reported that mining at the Gouldie deposit, stopped at the end of June 2015.

Luc Bourdon and Bourdon West Prospects - James Bay, Ontario

The Luc Bourdon and Bourdon West Prospects (the “Bourdon Prospects”) were acquired from Golden Valley pursuant to an Amended and Restated Transfer, Assignment, and Assumption Agreement dated March 30, 2011 among Abitibi Royalties, then Optionees, and Golden Valley. The Company owns a 100% interest in the Bourdon Prospects located in the lowland region of James Bay, Ontario. The Company is seeking new partnerships to fund future exploration programs and, if warranted by the results, to further develop the Bourdon Prospects.

Abitibi Royalty Search

On June 9, 2015, the Company launched the “Abitibi Royalty Search”, by which it would reimburse a company for the renewal fees on existing claims or staking fees on new claims and will receive in exchange a net smelter return royalty. The program offers junior mining companies an alternative to dropping potentially interesting claims or projects due to a lack of funds. Projects have to meet specific criteria to be eligible, such as being located in the close vicinity of an existing mine and showing good geology or signs of mineralization. As of December 31, 2015, the Company had closed eight NSR royalty acquisitions for a total investement of $79,774. In the first quarter ended on March 31, 2016 the Company had invested an additional $21,950. The amounts spent to acquire mining royalties are accounted in profit or loss.

14 - MANAGEMENT FEES

On October 1, 2010 the Company entered into a Management and Administrative Services Agreement (the "Management Agreement") with Golden Valley pursuant to which Golden Valley will provide certain administrative, management and financial services such as office space, administrative support, including the use of Golden Valley's in house legal counsel for day to day general enquiries, services of a chief financial officer and investors relations services to the Company in consideration of $96,000 per year (the "Fee"), payable on a monthly basis, plus applicable taxes. The provision of services by Golden Valley commenced on October 1, 2010, but payment of monthly fees started as of July 15, 2011 (the "Trading Date").

From July 1, 2013, Golden Valley agreed to provide the services but suspended the management fees to enable the Company to conserve cash for its operations. Accordingly, from July 1, 2013 to March 31, 2014, the Company did not pay any management fees to Golden Valley. Effective April 1, 2014, as its cash situation permitted such payment, the Company resumed payment of the management fees. For the three months ended March 31, 2016, the Company has paid management fees of $24,000 ($24,000 for the three months ended March 31, 2015) to Golden Valley.

The Management Agreement is for an initial term of two years commencing on the Trading Date, and will be automatically renewed after the initial term for successive period of 12 months. The Management Agreement can be terminated at any time and by either party, upon delivery of a twelve month written notice. The Management Agreement provides for the Fee to be reviewed on an annual basis.

The Company entered into an amending agreement (an "Amending Agreement") with Golden Valley dated as of May 21, 2014, amending the terms of the Management Agreement. The Amending Agreement confirms, among other things, that:

- if there is a change of control of the Company and Golden Valley terminates the Management Agreement within six months of the change of control;
- if the Company terminates the Management Agreement within twelve months of the change of control; or
- if the Company and Golden Valley agree to terminate the Management Agreement within six months of the change of control.

Then the Company will pay Golden Valley a termination payment equal to the aggregate of the amounts that would have been payable by the Company to Golden Valley as the fee for the period from the date of the Amending Agreement to the date on which the Management Agreement is terminated if payment of the fee had not been suspended during such period.
